

Human Resource Networking For 'Departments of One'

For companies with only one human resource professional, there is a new networking resource available to you. The Northwest Ohio Human Resource Association (NOHRA), which is a local chapter of the Society of Human Resource Management (SHRM), will be hosting an ongoing series of networking events for companies with a Human Resource Departments of one. This will also include companies where there is one HR Manager with an assistant or clerical help. The no-cost networking series is designed specifically to bring together the "Department of 1" Human Resource Professionals within Northwest Ohio to network, share information and provide educational resources that meet the needs of the smaller Human Resource Department. The "HR Dept of 1" Networking series is open to all qualified Human Resource Professionals and does not require membership in NOHRA. For more information and to be placed on the contact list for the networking series, contact Jill Kopanis at networking.chair@toledoshrm.org Networking series will begin in May. Request to be place on contact list need to be received by April 20, 2015.
